

WASTEWATER TREATMENT PLANTS

Reduce Emissions and Generate Clean Energy with the Power+ Generator™

TWO WAYS TO GENERATE CLEAN ENERGY AT WASTEWATER TREATMENT PLANTS

#1 Eliminate Flaring

By capturing the flare gas, ElectraTherm's Power+ Generator reduces or eliminates flaring at the site and generates clean energy.

+

=

- Clean Energy
- Reduced Emissions
- Flare Elimination

#2 Add the Power+ Generator to the Engine

Generate fuel-free, emission-free power from the engine's waste heat.

+

=

- Clean Energy
- Increased Efficiency
- Lower Capital & Maintenance

ELECTRATHERM'S ORGANIC RANKINE CYCLE (ORC) TECHNOLOGY

PROVEN TECHNOLOGY

LOW COST

LOW MAINTENANCE

Compared to a reciprocating engine:

80%

LOWER CAPITAL
COSTS AND
MAINTENANCE

LOWER
EMISSIONS BY
50-90%

PRODUCE
ENERGY AS
LOW AS
**9 ppm
NOx**

BENEFITS OF THE POWER+ GENERATOR

- » Reduce or Eliminate Flaring
- » Reduced Emissions
- » Simple Installation, Small Footprint
- » No Gas Treatment or Storage
- » Offset On-site Retail Cost of Power
- » No Utility PPA Hassle

NO BIOGAS FLAME
