

MICRO GEOTHERMAL

Generate Fuel-Free, Emission-Free Power with the POWER+ GENERATOR

BENEFITS OF THE POWER+ GENERATOR:

- Distributed, renewable power generation
- Ease of installation, operation and maintenance
- Low operational costs
- Robust, proven technology
- Modular and scalable to heat source
- Digital controls and remote monitoring
- Up to 120kWe Gross Power

CASE STUDIES

JAPAN #1

Hot Water Temperature: 98 °C
Flow Rate: 12 l/s
Power Output: up to 45kWe net

JAPAN #2

Hot Water Temperature: 104 °C
Flow Rate: 8 l/s
Power Output: up to 44kWe net

NEVADA, USA

\$1 Million Grant with DOE
Hot Water Temperature: 110 °C
Flow Rate: 10 l/s
Power Output: 65kWe net

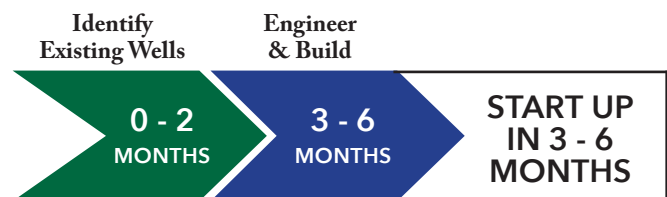

CONVERT YOUR GEOTHERMAL HEAT TO POWER AND TAKE ADVANTAGE OF APPLICABLE FEED-IN-TARIFF (FIT) INCENTIVES

- Proven Operation on Micro Geothermal
- Developed in Cooperation with the US Department of Energy (DOE)

TIMELINE FOR MICRO GEOTHERMAL PROJECT
